

MLX Network

The Apple Silicon Supercomputer.

MLX Network is in **Mainnet**: the **Mac app is live**, and an idle Mac earns MLX for AI work. Distributors introduce people to MLX and are paid in USDC on what they buy.

Three nodes. One for every Mac.

CORE	24-month lock	PRO	18-month lock	ULTRA	12-month lock
\$250		\$1,000		\$4,000	
Base M-series chips MacBook Air · iMac · Mac mini · 14-inch MacBook Pro		Pro and Max chips MacBook Pro · Mac mini · Mac Studio		Ultra chips Mac Studio	
Mines up to 20 MLX a day		Mines up to 80 MLX a day		Mines up to 320 MLX a day	

Latest editions for Apple's newest chips (M6, M5 Pro, M5 Max, M5 Ultra) cost and earn 1.5×: \$375 / \$1,500 / \$6,000, up to 30 / 120 / 480 MLX a day. A Mac without a node mines 1 MLX a day. A node earns its full rate only on a Mac of its class.

Why early matters.

Rewards halve as the network grows.

A Core node gets 25,000 MLX at genesis (\$0.01 per MLX). Rewards halve every 200,000 node units.

Commission steps down by node number.

The first 300 nodes pay the highest rate. Every later step pays less.

Two ways in.

A node gets MLX at the curve price, \$0.01 at genesis, locked 12–24 months, and the Mac mines on top. Spot MLX costs the curve price +25%, no lock.

What you earn.

NODE NUMBER	YOU	TEAM LEAD
1 – 300	40%	+5%
301 – 1,000	25%	+3%
1,001 – 5,000	15%	+2%
5,001 onward	6%	+1%

Spot MLX buys pay 5%, after 30 days. Node commissions are paid as **USDC into your MLX wallet after 7 days**. Recruit partners and you earn the team-lead override on their sales.

How to start.

- 1 Apply**
Sign in at distributor.mlx.app with your MLX wallet. Partners are approved by hand.
- 2 Share your link**
mlx.app/d/yourcode. First click counts, for a year.
- 3 Get paid**
USDC lands in your MLX wallet after each hold.

The rules.

- Never promise returns or a price.
- Say MLX is not affiliated with Apple Inc.
- No spam, ever.
- Your own purchases earn nothing.
- Break a rule and pending commissions aren't paid.

Questions: contact@mlx.app

MLX Network is an independent community and is not affiliated with Apple Inc. Apple, Mac, MacBook Air, MacBook Pro, iMac, Mac mini and Mac Studio are trademarks of Apple Inc. Mining rates are maximums; mined MLX is locked 18 months from the day it is earned. Nothing in this document is an offer of returns, a price forecast or financial advice. Commission rates are those of the program as of October 2026.
